

Welcome to the Saint Paul Police Department Professional Development Institute. We are dedicated to provide quality, affordable training to law enforcement officers and other professionals. SPPD has over fifty years of experience of delivering the finest quality training available. It is our hope that your department will select SPPPDI to help you meet your ever changing needs.

The Saint Paul Police Department recognizes that police training needs are constantly changing. PDI is also available to “train on request” to help fill your unique needs. We have the finest outdoor range available that is suitable to the many challenging needs of law enforcement.

As many of the courses fill up quickly once announced, early registration is suggested. However we do maintain a stand-by list in case of cancellations. Agencies will be billed for the course if less than seven days notice is given on cancellations.

The Saint Paul Police Department looks forward to serving your needs in 2010. Please feel free to contact the Saint Paul Police Training Unit at (651) 266-5555 to request customized training.

Please check the website: <http://www.stpaul.gov/index.aspx?NID=2949> for added classes.
